

# News and events

Friday 20th May

Dear Parents/Carers,

Today in our Celebration Collective Worship we celebrated Owen (Voyagers) for the value of wisdom, Freya (Discoverers) for the value of koinonia, Archie (Explorers) for the value of friendship and Luca (Shooting Stars) for the value of wisdom. Congratulations to them all.

We have lots of events and trips coming up next term which we are starting to prepare for. KS2 are joining Trowbridge schools for a Jubilee picnic - let's hope for a dry day! KSI will soon be choreographing their Dance Festival dance based on the book 'There's a tiger in the garden'. In addition, trips are being arranged. This is taking some time as travel has become exceedingly expensive so we need to find the best value for money for you and the children.

We are looking forward to the disco next Friday - please don't forget to buy a ticket from FOWAS.

Advanced notice - the Travelling Book Fair will be in school next term. Details will be sent out early Term 6 so you know what is available and how to order.

Finally, please can you ensure that trainers are only worn to school on our PE day, in line with our uniform policy.

Best wishes,

Mrs Blake-Thwaite

# What Parents & Carers Need to Know about DISCORD

**AGE RATING**  
**13+**  
Servers and channels marked as 'NSFW' require users to be 18 or older to join.

Discord is a free app which allows users to communicate in real time via text, video or voice chat. Available on desktop and mobile devices, it was originally designed to help gamers cooperate – but has evolved into a more general networking platform for a range of online communities, discussing topics like TV series, music, Web3 and more. Discord is organised around closed groups, referred to as 'servers'. To join a server, users must be invited or provided with a unique link. It's a space for users to interact with friends, meet others with shared interests and collaborate privately online – but it's also a place where young people can be exposed to risks if the right precautions aren't taken.

## WHAT ARE THE RISKS?

### CYBERBULLYING

Discord's easy accessibility and connectivity, unfortunately, makes it an ideal place for cyberbullying to occur – especially as audio and video streams disappear once they've ended, meaning that bullying could take place without leaving any evidence. Closed groups can also be created, giving young people the opportunity to exclude their peers or send cruel messages without adult oversight.

### DIFFICULT TO MODERATE

Like many private communication apps, Discord's real-time messaging can be difficult to control. The system enables content moderation through each individual server – so different groups can set their own rules for what's acceptable, and some groups may not monitor for unsuitable content. Anything that happens in an audio or video stream is also virtually untraceable once the stream has concluded.

### INAPPROPRIATE CONTENT

Discord mainly hosts private groups, making it easier for unsuitable or explicit content to be shared on channels. Pornography, racism and inappropriate language can be found in some groups. Server owners are required to add an age-restriction gate to channels where 18+ content is being shared – but this solution isn't foolproof, as the platform doesn't always verify users' ages when they sign up.

### ACCESSIBLE TO PREDATORS

On many chat platforms, users can lie about their age or true identity – and Discord is no exception. Predators have attempted to abuse the platform by using it to contact and communicate with underage users – by initially chatting with a child on an age-appropriate channel, for example. While Discord has improved its safety settings, some users will still try to bypass them for malicious reasons.

### CRIMINAL ACTIVITY

Discord does have strict Terms of Service and Community Guidelines to protect its users – but, sadly, not everyone adheres to them. Criminal activity including grooming, hate speech, harassment, exploitative content, doxing and extremist or violent material have all been found on Discord servers over the last two years. In 2020, Discord received almost 27,000 reports of illegal activity on the platform.

## Advice for Parents & Carers

### REVIEW SAFETY SETTINGS

Discord has a series of safety settings, enabling users to choose who can direct message them or send them friend requests. Your child's experience on Discord will be much safer if the app's privacy and safety settings are configured to only allow messages or friend requests from server members. This will minimise the chances of potential predators from outside the group contacting them.

### EXPLAIN AGE FILTERING

While Discord requires users to be at least 13 to sign up, many servers geared towards older users are flagged as NSFW (not safe for work), which indicates they probably contain material that's inappropriate for children. It can be easy to click through settings without properly reviewing them, so ensure your child understands why age filtering is important and that it's there to protect them.

### SCREEN OUT EXPLICIT CONTENT

In the privacy and safety settings, Discord users are offered the ability to filter direct messages for inappropriate content: a setting that should be enabled if your child uses the platform. Discord automatically tries to flag images that are explicit, but the setting must be manually enabled for text. If a young user is sent explicit content in a direct message, Discord will scan and (if necessary) delete it.

### MONITOR ONLINE ACTIVITY

It's wise to regularly review your child's activity on Discord. This can include checking their safety settings to ensure they're correctly enabled, talking about which servers they've joined and reviewing some of their friends and direct messages. Ask if anything has made them feel uncomfortable or unsafe. Things can change quickly online, so plan routine check-ins and follow up frequently.

### DISCUSS GOOD ONLINE BEHAVIOUR

The anonymity offered by the internet often leads people to communicate more openly online and behave differently than they would at school or home. It's crucial to bear in mind, though, that every internet user is still a real person. Talk to your child about the severe and lasting consequences that cyberbullying or exchanging inappropriate material online can have in the real world.

### HAVE CANDID CONVERSATIONS

It can sometimes be awkward to discuss topics like grooming, pornography, racism or explicit content with your child – but it's important to ensure they're aware of the harms these things can pose. Talking openly about these subjects is a great way to help your child feel more comfortable about coming to you if they experience an unwanted encounter on Discord (or anywhere else online).
